---

## SUMMARY:

Aspiring Python/Django Developer skilled in building scalable web applications, user authentication, and performance optimization. Proficient in Python, Django, REST APIs, and Data Manipulation.

## TECHNICAL SKILLS:

- **Programming Languages** - Python (Primary), C++ (Intermediate), Java (Intermediate)
- **Frameworks & Libraries** - Django, NumPy, pandas, Matplotlib
- **Database** - MySQL
- **Tools & Technologies** - Git, GitHub Actions, RESTful APIs

## PROJECTS

### 1. Online Academy – E-Learning Platform [\[Link\]](#)

- Built an e-learning platform with course enrollment, video lessons, quizzes, and certification.
- Integrated an AI-powered course recommendation system using NumPy & Pandas.
- Implemented progress tracking with dynamic visualizations.
- **Technologies Used:** Django | Python | NumPy | Pandas | Bootstrap

### 2. Banking Automation System – SwiftWave Bank [\[Link\]](#)

- Developed a full-stack banking system (SwiftWave Bank) using Django & React with real-world workflows.
- Key features: account creation with KYC, secure login, balance inquiry, transfer, deposit/withdrawal.
- Built an admin panel for managing customers and transactions.
- **Technologies Used:** Python | Django | HTML | CSS | JavaScript | Bootstrap

### 3. E-commerce Website [\[Link\]](#)

- Developed a Django-based full-featured e-commerce platform with a responsive design using Bootstrap.
- Key features include product catalog, shopping cart, order processing, and user authentication.
- **Technologies Used:** Python | Django | Pillow | HTML | CSS | Bootstrap

## EDUCATION:

### Bachelor of Computer Applications (BCA)

**Veer Bahadur Singh Purvanchal University, Jaunpur**

July 2022 - July 2025

- Overall Percentage (Till 5th Semester): 77.63%

### Higher Secondary Education (12th)

- Percentage: 73.8%

### Secondary (10th)

- Percentage: 77.33%
